Hi Rosa,

Here is our latest blog post that Matt Wood wrote: <https://aws.amazon.com/blogs/machine-learning/some-quick-thoughts-on-the-public-discussion-regarding-facial-recognition-and-amazon-rekognition-this-past-week/>.

Please let me know if you want to get on a call to discuss.

Andy Sakalian

Subject: Fw: CNN - Amazon shareholders call for halt of facial recognition sales to police

Andy,

We are seeing an increase in FOIA requests many of which are from outside our region. We believe the increase is triggered by the CNN article.

Do you have an official statement, if so would it be possible to get a copy?

Regards,

Rosa

Thank you Brian,

Is there any details that is considered IP property that AWS request to be redacted from FOIA requests?

Hi Rosa,

Here are the architecture slides Dmitry put together. The subtle different between current and planned would provide for a more dynamic notification list when a POI has been identified. For the POC, we made this a fixed contact list to save some time.

Let me know if you have any questions.

Thanks,
Brian

Dear Chief Canty and Ms. Akhtarkhavari,

During a recent presentation I misspoke about the City of Orlando's use of AWS technologies. I was aware that the City of Orlando is testing Amazon Rekognition Video and Amazon Kinesis Video Streams internally to find ways to increase public safety and operational efficiency, but that it was not correct to state that they had installed cameras all over the city or are using these services in production.

I sincerely apologize for any misunderstanding.

Regards

Ranju Das
Director – Amazon Rekognition

No problem at all. Just wanted to make sure you were aware.

The public release of Rekognition has been a pretty big deal. Interested to see where the AWS services will go with these technologies.

Chris,

I'm reaching out from Amazon Web Services, following up on your attendance to the Smart Cities event in Kansas. AWS is doing a lot of work in the smart city space.

Check out our main page here: <https://aws.amazon.com/smart-cities/>

I'm happy to connect with you to discuss the work we are doing and how we can potentially support the City of Orlando.

Thanks,
Akash
